

Marine Engineer Apprenticeship

Apprenticeship

As part of the Cornwall College Group, we are the largest provider of apprenticeships in the South West. We have a fully equipped specialist marine engineering workshop with a full size marine engine control room.

Whether you wish to repair and maintain marine engines or design a yacht, this marine engineering apprenticeship is the perfect place to start.

Our expert staff and specialist workshops will provide you with the best hands-on tuition so that you can gain relevant experience to help your career progression in the marine engineering industry.

This apprenticeship is ideal if you would like to install, maintain, and repair marine engines, ancillary systems and equipment, on yachts, commercial craft and superyachts. You will learn how to design and produce solutions to meet boat layouts, restrictions and engineering requirements.
