

# Level 2 Marine Technology

16-19

Adult

If you like boats and boating, or like the idea of a future in the thriving Marine Sector and you love working with your hands; then Boatbuilding or Marine Engineering could very well be the career path for you.

Derived through employer consultation, this entry level course is something you can really get stuck into. You'll notice there is a large practical element to the course and you will spend a great deal of time in our dedicated Boatbuilding and Marine Engineering workshops, developing essential hand skills for working with a multitude of tools and materials utilised within the Marine Industry.

You'll be able to gain first hand knowledge and experience to help you plan your next steps; to decide if Boatbuilding or Engineering suit you best.

Our workshops features industry-standard equipment, exactly like a working Boatyard. We have strong connections with local Boatbuilding and Marine Engineering companies, and those employers know any Marine Technology qualification from Falmouth Marine School, and The Cornwall College Group means you have the very best skills. So, if you dream of creating exotic boats with beautiful flowing curves, or servicing, repairing or relacing engines, transmissions and ancillary systems, then this is the very best place to start.

As a Level 2 course, this diploma is all about introducing you to the marine industry and developing your essential skills. You'll be learning from experienced professionals, who are there to give you the very best start to your career.
